# 2005 Telephone Annual Report

## Instructions

### General

1. A Microsoft EXCEL workbook of the annual report is being provided on computer disk for your convenience. The workbook contains the schedules of the annual report. Each schedule is on the worksheet named that schedule. For example, Schedule 1 is on the sheet titled "Schedule 1". By entering your company name in the cell named "Company" of the first worksheet, the spreadsheet will put your company name on all the worksheets in the workbook. The same is true for inputting the year of the report in the cell named "YEAR". You can "GOTO" the proper cell by using the F5 key and selecting the name of the cell. You may also obtain these instructions and the report in both an Adobe Acrobat<sup>®</sup> format and as an EXCEL<sup>®</sup> file from our website at <http://psc.mt.gov/> under the "Reports" section on that page. Please be sure you use the 2005 report form. It has been updated and slightly changed from the 2004 report.
2. Use of the disk is optional. The disk and the report cover shall be returned when the report is filed. There are macros built into the workbook to assist you with the report.
3. All forms must be filled out in permanent ink and be legible. Note: Even if the computer disk is used, a printed version of the report shall be filed. **Please submit one unbound copy of the annual report along with the regular number of annual reports that you submit.** This aids in scanning the report so that it may be published on our web site. The orientation and margins are set up on each individual worksheet and should print on one page. If you elect not to use the disk, please format your reports to fit on one 8.5" by 11" page with the left binding edge (top if landscaped) set at .85", the right edge (bottom if landscaped) set at .4", and the remaining two margins at .5".
4. Unless otherwise indicated, all information required in these schedules shall be from the accounts prescribed in 47 C.F.R. Part 32 and the definitions and instructions therein will apply to this report wherever applicable.
5. Information on financial schedules may be rounded to thousands of dollars for companies with over 5,000 access lines. Companies submitting schedules rounded to thousands should so indicate at the top of the schedule.
6. Where more space is needed or more than one schedule is needed additional schedules may be attached and should be included directly behind the original schedule to which it pertains and be labeled accordingly (for example, Schedule 1A).

7. The information required with respect to any statement shall be furnished as a minimum requirement to which shall be added such further information as is necessary to make the required schedules not misleading.
8. The following schedules should be filled out with information on a total company basis:

- Schedules 1 - 4
- Schedule 10
- Schedules 13 - 17
- Schedule 19
- Schedule 20, Page 1 of 2
- Schedules 33 and 34

All other schedules should be filled out with Montana specific data. Financial schedules should include all amounts originating in Montana or allocated to Montana from other jurisdictions.

9. All companies owned by another company shall attach a corporate structure chart of the holding company.
10. The following schedules are not required to be filled out or submitted by companies with less than 5,000 access lines:

- Schedule 6
- Schedules 17 and 18
- Schedule 21

11. Schedules that have no activity during the year or are not applicable to the respondent should be marked as not applicable and submitted with the report.
12. Companies with under 5,000 lines may use summary accounts and should leave lines for subaccounts blank. Summary accounts are noted with an asterisk and subaccounts that are not required are noted with a caret.
13. Companies with over 5,000 lines must complete schedules to all required subaccount detail.
14. FCC Form M sheets may not be substituted in lieu of completing annual report schedules.
15. Common sense must be used when filling out all schedules.

(9) POSTRETIREMENT BENEFITS

We sponsor health care plans (which use a December 31 measurement date) that provide postretirement benefits to all qualified retired employees.

In May 2004, the Financial Accounting Standards Board issued Financial Statement Position FAS 106-2, which provides accounting guidance to sponsors of postretirement health care plans that are impacted by the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the "Act"). We believe that certain drug benefits offered under our postretirement health care plans will qualify for subsidy under Medicare Part D. In the third quarter of 2004, we estimated that the effect of the Act on us would not be material. We first reflected the effects of the Act as of the December 31, 2004 measurement date. As of this date, we estimated that the reduction in our accumulated benefit obligation attributable to prior service cost was approximately \$7 million and reflected such amount as an actuarial gain.

In 2005, in connection with negotiating certain union contracts, we amended certain retiree contribution and retirement eligibility provisions of our plan. In 2003, we announced changes, effective January 1, 2004, that (i) decreased our subsidization of benefits provided under our postretirement benefit plan for existing participants and (ii) eliminated our subsidization of benefits for employees hired after January 1, 2003.

The following is a reconciliation of the beginning and ending balances for the benefit obligation and the plan assets.

<u>Year ended December 31,</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
	(Dollars in thousands)		
Service cost	\$ 6,289	6,404	6,176

<u>Net periodic postretirement benefit cost</u>	<u>\$ 21,607</u>	<u>21,487</u>	<u>21,309</u>

The following table sets forth the amounts recognized as liabilities for postretirement benefits at December 31, 2005, 2004 and 2003.

<u>December 31,</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
	(Dollars in thousands)		
Benefit obligation	\$ (353,942)	(305,720)	(311,421)
Fair value of plan assets	29,545	29,570	29,877
Unamortized prior service cost	(1,726)	(26,891)	(33,068)
Unrecognized net actuarial loss	82,660	68,185	89,893
<u>Accrued benefit cost</u>	<u>\$ (243,463)</u>	<u>(234,856)</u>	<u>(224,719)</u>

Assumptions used in accounting for postretirement benefits as of December 31, 2005 and 2004 were:

	<u>2005</u>	<u>2004</u>
Determination of benefit obligation		
Discount rate	5.5%	5.75
Healthcare cost increase trend rates (Medical/Prescription Drug)		
Following year	9.0%/14.0%	10.0/15.0
Rate to which the cost trend rate is assumed to decline (the ultimate cost trend rate)	5.0%/5.0%	5.0/5.0
Year that the rate reaches the ultimate cost trend rate	2010/2015	2010/2015
Determination of benefit cost		
Discount rate	5.75%	6.0
Expected return on plan assets	8.25%	8.25

We employ a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. The intent of this strategy is to minimize plan expenses by outperforming plan liabilities over the long term. Risk tolerance is established through careful consideration of plan liabilities, plan funded status and corporate financial condition. We measure and monitor investment risk on an ongoing basis through annual liability measurements, periodic asset studies and periodic portfolio reviews.

Our postretirement benefit plan weighted-average asset allocations at December 31, 2005 and 2004 by asset category are as follows:

	2005	2004
Equity securities	60.2%	63.0
Debt securities	31.4	34.1
Other	8.4	2.9
Total	100.0%	100.0

In determining the expected return on plan assets, we study historical markets and apply the widely-accepted capital market principle that assets with higher volatility and risk generate a greater return over the long term. We evaluate current market factors such as inflation and interest rates before determining long-term capital market assumptions. We also review peer data and historical returns to check for reasonableness.

Assumed health care cost trends have a significant effect on the amounts reported for postretirement benefit plans. A one-percentage-point change in assumed health care cost rates would have the following effects:

	1-Percentage Point Increase	1-Percentage Point Decrease
	(Dollars in thousands)	
Effect on annual total of service and interest cost components	\$ 1,498	(1,428)
Effect on postretirement benefit obligation	\$ 23,159	(21,736)

We expect to contribute approximately \$18 million to our postretirement benefit plan in 2006.

Our estimated future projected benefit payments under our postretirement benefit plan are as follows:

Year	Before Medicare Subsidy	Medicare Subsidy	Net of Medicare Subsidy
	(Dollars in thousands)		
2006	\$ 18,500	(800)	17,700
2007	\$ 20,700	(900)	19,800
2008	\$ 22,900	(1,000)	21,900
2009	\$ 24,400	(1,100)	23,300
2010	\$ 26,000	(1,100)	24,900

(10) DEFINED BENEFIT AND OTHER RETIREMENT PLANS

We sponsor defined benefit pension plans for substantially all employees. We also sponsor a Supplemental Executive Retirement Plan to provide certain officers with supplemental retirement, death and disability benefits. We use a December 31 measurement date for our plans.

The following is a reconciliation of the beginning and ending balances for the aggregate benefit obligation and the plan assets for our above-referenced defined benefit plans.

At December 31, 2005 and 2004, our underfunded pension plans (meaning those with projected benefit obligations in excess of plan assets) had aggregate benefit obligations of \$437.8 million and \$172.0 million, respectively, and aggregate plan assets of \$382.2 million and \$109.0 million, respectively.

Net periodic pension expense for 2005, 2004 and 2003 included the following components:

<u>Year ended December 31,</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>

The following table sets forth the combined plans' funded status and amounts recognized in our consolidated balance sheet at December 31, 2005, 2004 and 2003.

December 31,	2005	2004	2003

Our accumulated benefit obligation as of December 31, 2005 and 2004 was \$392.3 million and \$353.1 million, respectively.

Amounts recognized on the balance sheet consist of:

Accumulated Other Comprehensive Loss	11,662	15,407	-
	\$ 73,360	46,800	59,055

Assumptions used in accounting for the pension plans as of December 2005 and 2004 were:

	2005	2004
Determination of benefit obligation		
Discount rate	5.5%	5.75
Weighted average rate of compensation increase	4.0%	4.0
Determination of benefit cost		
Discount rate	5.75%	6.0
Weighted average rate of compensation increase	4.0%	4.0
Expected long-term rate of return on assets	8.25%	8.25

We employ a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. The intent of this strategy is to minimize plan expenses by outperforming plan liabilities over the long term. Risk tolerance is established through careful consideration of plan liabilities, plan funded status and corporate financial condition. We measure and monitor investment risk on an ongoing basis through annual liability measurements, periodic asset studies and periodic portfolio reviews.

Our pension plans weighted-average asset allocations at December 31, 2005 and 2004 by asset category are as follows:

	2005	2004
Equity securities	69.5%	71.7
Debt securities	28.0	25.5
Other	2.5	2.8
Total	100.0%	100.0

In determining the expected return on plan assets, we study historical markets and apply the widely-accepted capital market principle that assets with higher volatility and risk generate a greater return over the long term. We evaluate current market factors such as inflation and interest rates before determining long-term capital market assumptions. We also review peer data and historical returns to check for reasonableness.

The amount of the 2006 contribution will be determined based on a number of factors, including the results of the 2006 actuarial valuation report. At this time, the amount of the 2006 contribution is not known.

Our estimated future projected benefit payments under our defined benefit pension plans are as follows: 2006 - \$22.8 million; 2007 - \$24.1 million; 2008 - \$26.9 million; 2009 - \$29.0 million; 2010 - \$31.2 million; and 2011-2015 - \$190.8 million.

We also sponsor an Employee Stock Ownership Plan (“ESOP”) which covers most employees with one year of service and is funded by our contributions determined annually by the Board of Directors. Our expense related to the ESOP during 2005, 2004 and 2003 was \$7.3 million, \$8.1 million, and \$8.9 million, respectively. At December 31, 2005, the ESOP owned an aggregate of 6.0 million shares of CenturyTel common stock.

We also sponsor qualified profit sharing plans pursuant to Section 401(k) of the Internal Revenue Code (the “401(k) Plans”) which are available to substantially all employees. Our matching contributions to the 401(k) Plans were \$9.5 million in 2005, \$9.1 million in 2004 and \$8.2 million in 2003.
